Important Health Warning About Playing Video Games

Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

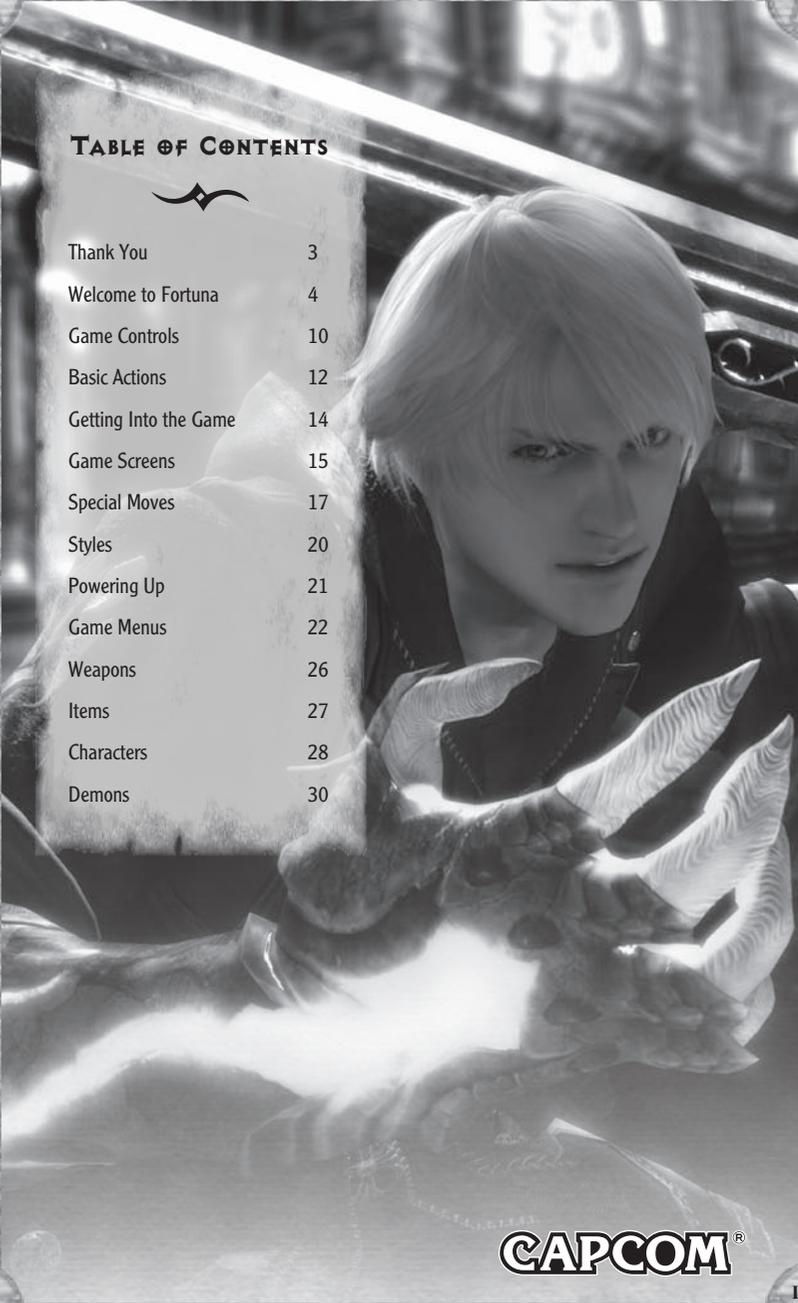

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions: Sit farther from the screen; use a smaller screen; play in a well-lit room; and do not play when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

WELCOME TO FORTUNA

On the coast of a distant land lies the castle town of Fortuna.

It is here that the group known as the Order of the Sword practices a religion so mysterious, no outsider knows what happens behind closed doors.

In times past, the Order of the Sword fought to protect mankind. They revere the demon warrior Sparda as their god, and their hatred of all other demons runs deep. Their sole purpose is the extermination of these demons.

On the day of the annual Festival of the Sword, a powerful man appeared seemingly from nowhere. Before anyone could act, this man assassinated the head of the Order!

A young knight of the Order, whose only purpose previously was the extermination of all demons, was immediately ordered to pursue the mysterious assassin...

A number of demons appeared suddenly from deep within the Mitis Forest and attacked the city, destroying a number of houses and inflicting slight injuries to citizens.

As luck would have it, Nero, a knight of the Order of the Sword, was present at the scene. All demons were exterminated. During this incident, a private female citizen who was a traveling companion of Nero's, was injured. Nero himself received a minor injury to his right shoulder.

The ministry of technology has determined that Nero's sword, the Red Queen, took some damage and is currently being repaired.

A detailed investigation of the area was performed, but no conclusions have been made concerning the reason behind the demon attack. There will be another investigation at a later date.

CHARACTERS

KYRIE

The songstress at the Order's Festival of the Blade, the beloved Kyrie is also the younger sister of the Holy Knights' Supreme General, Credo. Having accepted the orphaned Nero into her family as a child, their ambiguous relationship contains aspects of family, friend and lover.

NERO
Although respected by his fellow Holy Knights for his talents, Nero's sardonic attitude proves that he doesn't play well with others. Preferring to work solo, Nero is often given the Order of the Sword's dirty work.

CREDO

Charged with protecting Fortuna from demons via his role as Supreme General of the Holy Knights, Credo earned his title through skill with the blade, gaining the respect of the Order's members and the hundreds under his command. As Kyrie's brother, he too has accepted Nero as a member of his family, despite the youth's constant insubordination.

DANTE
The son of the dark knight Sparda, Dante is the hero who defeated the demon emperor and sealed off the demon world, saving all of humanity. Now making his living tracking down demons as a Devil Hunter, his illustrious career of fighting the demons that dare to threaten humanity has made him a truly superior warrior. Some say that his skill and power have surpassed even that of the legendary Sparda himself.

★ DEMONS ★

BERIAL

A demon hailing from a cruel circle of the underworld known as the Fire Hell. The otherworldly flames that wrap Berial's body prevent him from magical attacks. However, when these flames are extinguished, Berial becomes vulnerable.

MEPHISTO

A floating demon wrapped in a black cape of special gas that allows it to pass through objects. Mephisto appears to its foes as a black demon of death; however, its true physical form is nothing but a tiny coward.

FRÖST

An elite demon sired by the emperor of demon-kind, Frosts are all-purpose soldiers used in a variety of situations. Frosts encase themselves in ice to recover their strength, so quickly destroying their icy cocoon is key.

SCARECROW

A demon which takes the form of sacks filled with Trypoxylus. These insects are unintelligent. However, by moving as one, they form a Scarecrow-like being. With a bladed arm, this type of Scarecrow often takes the role of executioner.

A shadow knight rose up,
holding an enchanted sword named after me.
That blade will challenge the devil's reign.

Destroying the minions of darkness
that stand in his path,
the knight finally faced the strongest demon.
But his strength was no match
for the devil's dark wrath.
He was defeated and fell into oblivion.

The people offered up their prayers,
believing in the day when the darkness would pass,
and sang songs of remembrance to the fallen knight.

These prayers became our strength, our miracle,
and by this miracle the shadow knight was reborn,
and once again fought the devil's power.

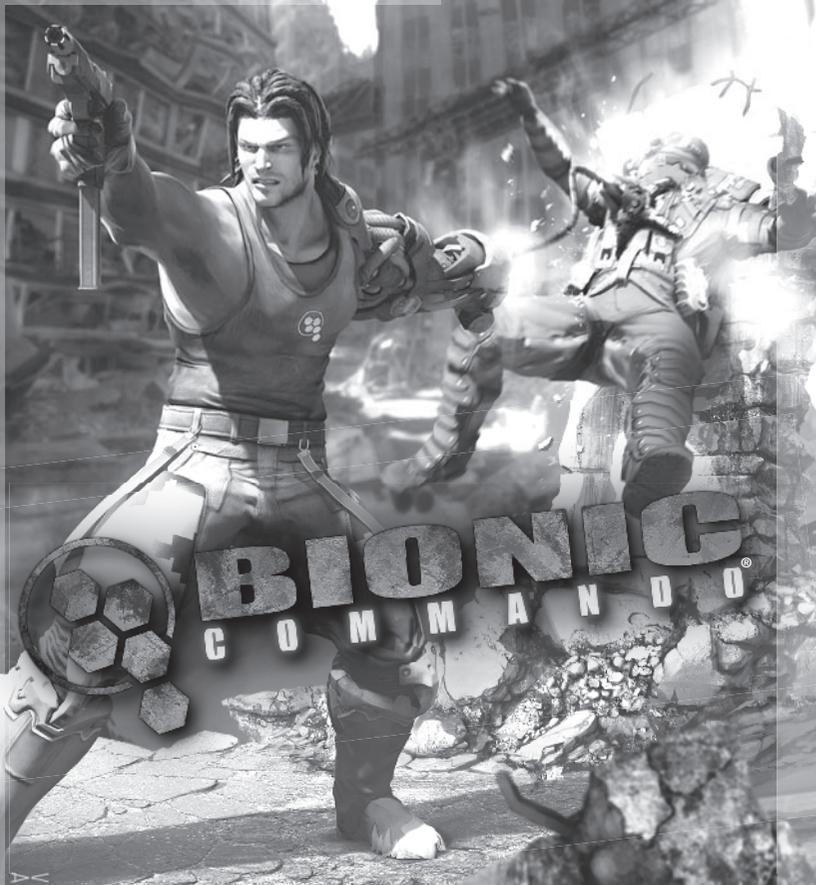

As the shadow knight said,
the darkness has cleared.
