Important Health Warning: Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people with no history of seizures or epilepsy may have an undiagnosed condition that can cause "photosensitive epileptic seizures" while watching video games. Symptoms can include light-headedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, momentary loss of awareness, and loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects. **Immediately stop playing and consult a doctor if you experience any of these symptoms.** Parents, watch for or ask children about these symptoms—children and teenagers are more likely to experience these seizures. The risk may be reduced by being farther from the screen; using a smaller screen; playing in a well-lit room, and not playing when drowsy or fatigued. If you or any relatives have a history of seizures or epilepsy, consult a doctor before playing.

Controle Xbox 360

SOBRE OS DISCOS 1 E 2:

O Disco 1 é o Disco de Jogo primário que será usado quando jogar o jogo principal. O Disco 2 vem com um pacote de textura de alta resolução, assim como o pacote de voz em japonês. A instalação de ambos é opcional, mas a instalação do pacote de texturas HD é altamente recomendada. Para instalar, simplesmente insira o Disco 2 no seu Xbox 360 e siga as instruções. Uma vez instalados, ejeete o Disco 2 e insira o Disco 1 para iniciar o jogo.
