from the status screen.

Status Screen

Press  to display the status screen. You can check your health and use items on this screen.

The status screen is a complex UI interface. At the top, there are four navigation buttons: 'Exit' (Return to game), 'Files' (Files screen), 'Map' (Map screen), and a 'Standard item' icon. The main area is divided into several sections:

- Heart Monitor:** A central monitor displaying a green ECG waveform and the word 'Fine' at the bottom.
- Defensive Items:** A section showing a knife icon with the number '2' and a 'Use' button.
- Inventory:** A grid of items including a handgun (12), a key (1), and a scroll (30).
- Equipped Weapon:** A section showing a handgun with the number '12'.
- Command List:** A vertical list of buttons: 'Equip', 'Use', 'Examine', and 'Combine'.
- Item Messages:** A scrollable area at the bottom showing a 'Use item' message.

On the left side, there is a detailed view of the Heart Monitor with four status levels:

- Fine:** Green background, regular ECG waveform.
- Caution:** Yellow background, irregular ECG waveform.
- Danger:** Red background, irregular ECG waveform.
- Poisoned:** Purple background, irregular ECG waveform.

Red callout boxes with white text label the following elements:

- Return to game
- Files screen
- Map screen
- Standard item
- Heart Monitor
- The monitor shows your status
- Defensive items
- Item messages
- Command list
- Inventory
- Equipped weapon

Items

Selecting an item will display the following commands.

Standard items like Chris's Lighter and Jill's Lock Pick will also show these commands.

Use Select Use and press 

Use the selected item.

(Doesn't work with weapons and ammo.)

Examine Select Examine and press 

View an item up close and read more information about it. You may even discover something.

You can even rotate the item.

Press  to examine an item in more detail.

Combine Select Combine and press 

Some items can be combined with others to modify them (guns and ammo) or produce new items (mixed herbs). Select an item and choose Combine, and a cursor will appear. Use that cursor to select the item you want to combine the selected item with.

Item Management

You can only hold a limited number of items, so you will need to store some of them in the Item Boxes found in different areas of the game.

Press  while next to an Item Box to use it and store or retrieve items.

Equipping Weapons

Even if you have a weapon, you still need to equip it in order to use it. Select the weapon in your item list and choose Equip from the command list.

Defensive Items

Push ← on the left stick when the cursor is in the item list to move the cursor to the Defensive Items list. Select one using ↑↓ on the left stick and press ⊗ to display the command list. Choose Equip to equip it.

★You can't access this list if you have no Defensive Items.

★If you choose Equip on an item you already have equipped, it will be unequipped.

Map

You can find a map in the game that can be viewed at any time. Push ↑ on the left stick on the status screen to highlight the Map icon, and then select it.

On the map screen, you can see your current location and how all the areas are connected.

★Move the left stick ← → to change the map area, and ↑↓ to change the floor level.

★If you haven't obtained the map yet, you will only see areas that you have already visited.

Files

You can view the files you've picked up during the game.

Push **↑** on the left stick on the status screen to highlight the Files icon, and then select it.

Select the category you want and press **⊗** to show the contents.

Then select the file you want and press **⊗** to view it.

Saving

To save your game's progress, you need to have an Ink Ribbon. Once you have one, press **⊗** at a typewriter. It will ask you if you want to save. Select "yes" to save.

A save file list will be displayed. Push **↑↓** on the left stick to select a file and press **⊗** to save.

★The font color represents the game's difficulty level.

★You must have at least 1,868 KB of hard disk drive space available on your PlayStation®4 system in order to save a game.

CAUTION!

Saving your game uses up one Ink Ribbon. The number of Ink Ribbons in the game is limited, so be careful!

Settings

You can change game settings through the Options screen by selecting it at the title screen or by pressing the OPTIONS button during the game.

★Some options are only available through the Options screen accessed from the title screen.

Display

You can set your screen ratio to be 4:3 or 16:9 widescreen.

★4:3 replicates the original game screen ratio.

Controls

Push   on the left stick to select the control type you want to use. Do the same with Vibration or Defensive Items selected to turn the vibration function on/off and turn Defensive Items to auto or manual.

Toggling Controls

You can toggle between the original controls and the alternate control setup.

Brightness

Adjust the brightness of your monitor.

If you are not able to get satisfying results, push   on the left stick to toggle to the game brightness adjustment mode.

Settings

Audio

You can adjust the BGM and SFX volume. To adjust the volume, select what you want to adjust by pushing   on the left stick and then push   to adjust the volume.

Language

You can change the in-game language and toggle subtitles on/off for cutscenes.

Auto data upload

Toggle Resident Evil.Net functionality on/off.

See page 12 for more details.
