## RESIDENT EVIL® REVELATIONS

## character

#### JILL VALENTINE

A member of the BSAA, an NGO founded by the Global Pharmaceutical Consortium, and one of the sole survivors of the Raccoon City Incident. She and her partner, Parker, infiltrate a mysterious cruise ship in search of Chris.

#### CHRIS REDFIELD

A founding member of the BSAA, and a survivor of the Mansion Incident. The BSAA lost contact with him while he was investigating a new bioterrorist threat.

#### PARKER LUCIANI

Jill's current partner, Parker is known for his uncompromising dedication to his duty. While he may seem composed most of the time, his hot-blooded nature often reveals a sincere, awkward streak that is difficult not to love.

#### JESSICA SHERAWAT

Chris's partner in his investigation. Her penchant for making a fashion statement belies her combat prowess and her first-rate marksmanship skills.

## CUSTOMIZE\_\_\_

#### THE WEAPON BOX

The Weapon Box pictured left allows you to change and customize your main weapons. Before you can customize your weapons, however, you need to obtain custom parts.

## CHANGING WEAPONS

A character can only carry up to three main weapons at a time. Any extra weapons can be stored in the Weapon Box to swap out at any time. New weapons you obtain can also be accessed from the Weapon Box, so visit it often to manage your arsenal.

## WEAPON CUSTOMIZATION

You can strengthen a weapon's capabilities by outfitting it with custom parts. Each custom part has its own properties and limitations on which weapon it can be equipped to, but they can be equipped and unequipped freely.

#### CUSTOMIZING RAID-MODE-ONLY WEAPONS

Raid Mode (p. 10) features special "tagged weapons" that don't appear in Campaign Mode. You can also find separate boost and tag items as you make progress. Though they cost a large amount of BP, they can provide impressive enhancements for your weapons.

## RAID MODE\_

In Raid Mode, you progress through each stage while defeating numerous enemies. The availability of maps is dependent on your progress in Raid Mode and Campaign Mode.

Raid Mode can be played single-player or in two-player co-op by connecting to the internet to play with players from around the world.

Taking control of one of the game's characters, you must make your way to the emblem that marks the goal. Destroy the emblem with a physical attack to complete the stage. Upon completion, you will earn BP and experience based on your performance. Earn enough experience and your level will increase.

The BP you earn can be used to buy weapons, ammo, and custom parts from the Raid Mode store.

Note: Weapons, ammo, and items you acquire can only be used in Raid Mode.

#### BASIC CONTROLS

You can view basic controls from the manual in the Menu.

Hold the left stick down and press × to do a quick turn.

Use an herb after taking damage to avoid death.

Use your ammo wisely.

Keep an eye on your ammo to avoid reloading at inopportune times.

Search the entire ship for powerful weapons.

Swap weapons with the left and right directional buttons.

#### **GAMEPLAY TIPS**

Hitting certain areas on enemies inflicts greater damage.

You can strafe by tilting the left stick right or left.

You can use the left stick to move while aiming your gun.

Swap subweapons with the up and down directional buttons.

You can dodge while reloading.

Hold  $\times$  to power up your physical attacks.

Use physical attacks on enemies when they're staggered.

Get a 100% analysis with the Genesis to receive a health item.

You can change the camera for swimming in OPTIONS.

#### **GENERAL TIPS**

If your attacks seem ineffective, try aiming for different body parts.

You can do huge damage to enemies by exploding gas cylinders.

Evade attacks by moving or doing a quick turn.

You can't dodge repeatedly.

The B.O.W. Decoy attracts enemies to it before exploding.

Shock grenades used in water can take out many enemies.

Pulse grenades can be used to stagger enemies.

Pulse grenades can also be used underwater.

You can intercept enemy projectiles.

You can destroy enemy traps.

When swimming, you'll die if you become unable to breathe.

Dodge underwater attacks by moving up or down.

The indicator on the bottom right will flash when you're near an item you can find with the Genesis.

You get more data from scanning the closer you are to an enemy.

#### **Quint Cetcham**

The BSAA's resident mega geek. He has a habit of comparing everything to movies. He also thought up a lot of the ideas for the Genesis scanner.

16

#### RAID MODE TIPS

An enemy's attack power and defense increase with its level.

It's better to avoid enemies 10 or more levels higher than you.

If you're stuck, try going back to a previous stage to level up.

You can change the player's level in Characters.

If you get stuck, try playing at a level above the recommended level Keep in mind that you won't get a low-level bonus in this case.

You can earn a low-level bonus for extra EXP and BP by completing a stage with a level lower than what is recommended.

Weapons have required levels for use, but custom parts have no such limitations.

The store increases its stock as your level increases.

Items in the store can change every time you visit.

The color of a custom part's name on the parts screen indicates if it can be equipped. Yellow: equippable. Dark yellow: unequippable (similar part already equipped). Gray: unequippable.

A weapon that is tagged means that it has a special modification.

You can purchase ammo, grenades, and herbs from the store.

There are items in the store that will increase your carrying capacity.

The store offers body armor that will help mitigate the damage you take.

Weapons of the same type and level can still have different properties and number of part slots.

#### **Raymond Vester**

A mysterious figure who appeared before Jill and Parker. His aims are unclear, but he may hold some vital information about the incident. His calm manner and piercing gaze insinuate that he may be working as an agent for a certain organization...

#### RAID MODE TIPS

The Rifle and the Assault Rifle have piercing capabilities.

Conserve ammo by wisely using your knife and physical attacks.

Each character is proficient with different weapons.

Grenades are a great way of taking out obscured enemies.

Attacking enemy weak points can cause critical damage.

Enemies have trouble opening doors. Running away can often be a clever strategy.

Knowing when to fight and when to run can help you survive longer in Raid Mode.

Save your partner from death by using a healing herb next to them.

In co-op play, ammo can be picked up by both players, so don't be afraid to take whatever you find.

You can do more damage by timing a charged physical attack with your partner onto the same enemy.

Dying reduces the amount of EXP and BP you receive. Retire if you get into a tight spot.

You will still get EXP and items if you retire from a mission.

Named enemies will always drop custom parts.

Enemies with icons are especially strong.

Enemies with a will have different attacks than normal enemies.

Stages with () on them contain tough, named enemies.

You can obtain an herb by destroying the emblem at a stage's goal with a charged physical attack.
