## EARTH UPDATE ... 220x

### IT IS THE YEAR 220x . . .

Extraterrestrial life has been discovered. The new space exploration agency, NAZA, in an effort to enter into a friendly relationship, or *BrotherBand*, with the aliens, launched a space station named *Peace*. Humankind's dream to find other intelligent life among the stars had finally been realized.

However, the space station, the hope of humankind, had a very mysterious accident, and disappeared! Numerous agencies worked long hours to find it, but the space station was gone.

Then, a few months after the incident, a section of *Peace* was found in the sea. All hope was now lost. NAZA stopped the search, and put its space exploration project on permanent hold.

Three years to the day have now passed ...

... and for a boy from the town of Echo Ridge, the story has just begun.

### A FUTURE WHERE EVERYONE HAS A TRANSER

Everyone in the future carries a mobile terminal called a *Transer*. This useful device evolved from cell phones. It serves as a phone, sends and receives e-mail, and displays text from items such as textbooks and newspapers.

Another feature is its ability to summon Navis through a card system known as *Card Force*. By sliding a card through a *Transer*, its owner can call for help from a program with a personality as well as weapons programs. This Navi can then traverse the Net in place of a human.

Transers are all registered to one of three Satellites: Pegasus, Leo, or Dragon.

### A BROTHERBAND IS PROOF OF FRIENDSHIP

Transers support an onboard system called the *BrotherBand System*. It's a way for close friends to strengthen their friendship.

By using this system and creating a *BrotherBand*, friends can stay connected and send e-mail and data back and forth.

## CHARACTERS

### GEO STELAR

A 5th grader who lives in Echo Ridge. Because of what happened 3 years ago, he has stopped going to school, and spends his time alone, staring at the sky. His dream is to become an astronaut, just like his father.

### OMEGA-XIS

An energy being from outer space who invited himself into Geo's Transer after the boy attracted his interest. For some reason, he seems to know Geo's dad...

### MEGA MAN

Geo and Omega-Xis' fused EM form.

### GEO'S FRIENDS

**SONIA STRUMM** — A very popular young singer.

**BUD BISON** — A rough and tough kid with the muscles to back him up.

**LUNA PLATZ** — Geo's Class President.

**ZACK TEMPLE** — Echo Ridge's resident geek. He knows all.

### FM-ANS

Mysterious alien energy beings. They came to Earth in pursuit of Omega-Xis.

### EXPLORING THE REAL WORLD

The *Real World* is where humans live. People can slide Navi Cards through their Transers to call Navis, who operate electronic devices for humans.

- Talk/Examine** Press the **A Button** to talk with people or examine something.
- Put on Your Visualizer** Press the **Y Button** to put on your Visualizer. This lets you see the Wave World. When you spot someone in trouble, or notice a strange-looking spot, try putting on your Visualizer to check it out!
- Talk with Omega-Xis** Press the **L Button** to talk with Omega-Xis anywhere. If you're ever lost, Omega-Xis is there for you.
- Transform into Mega Man** Put on your Visualizer to find *waveholes* (places where EM waves have distorted space). Press the **R Button** at one of these, and Geo and Omega-Xis will EM Wave Change into Mega Man. When FM-ians are causing trouble, find a wavehole and head for the Wave World!
- Flip between Cards!** Press **SELECT** to change the card displayed on the Top Screen. As you travel, you will find more cards that can be displayed there. Using certain cards in specific places may open up new paths to explore!
- Answer Help Signals!** There may be times when you need to answer help signals. Who is calling for help and where are they? Be the hero and search them out!

### EXPLORING THE WAVE WORLD

The mysterious *Wave World* is unknown to humans. Navis called on by humans traverse this world, and operate electronic devices by entering their Comp Spaces from here.

- Pulse Out** Press the **R Button** to return to the Real World from the Wave World. This is called *pulse out*. There are places where you can't pulse out.
- Mystery Waves** You can find EM crystals known as *mystery waves* in the Wave World. By examining them, you could get a Battle Card or an item. There are other, rarer mystery waves as well.
- Pulse In to Transers!** You can enter electronic devices from the Wave World by *pulsing in*. In the Wave World, you can see humans below you. Touch people to pulse in to their Transers, where you can see their secrets and read about their troubles. If you help them solve problems, something good might happen!
- Pulse In to Electronic Devices!** While traveling around the Wave World, you might see waveholes swirling above some electronic devices. The wavehole is a sign that the electronic device can receive EM waves. Touch the wavehole, and you will be whisked inside the device's Comp Space. When electronics break or malfunction, an EM virus or an FM-ian may be lurking inside its Comp Space. That's when it's time to pulse in and take care of the problem!

### EXPLORING COMP SPACES

Comp Spaces are areas from which electronic devices are controlled. If a Navi enters a Comp Space, the Navi can control that device. However, if an EM virus or an FM-ian enters, the electronic device breaks or goes haywire. Many challenges await you in the Comp Spaces. You can overcome them by interacting with the Touch Screen.

- Ride 'em, Cowboy!** Go into the truck's Comp Space to rescue Luna and company from Taurus Fire! You'll have to ride some angry bulls to reach them. Hang on by touching the balance icons, and make your way to your friends!
- It's Hunting Season!** You have to defeat Cygnus Wing to save your friends from the Swan Dance of doom! Touch the rocket and slide it upward to shoot down some Quacky Lacksies!

## BATTLE: CUSTOM SCREEN

#### WHITE CARDS

Cards with a white bar at the bottom are called **White Cards** and can be used with any other cards.

### CARD TYPES

There are 4 different card types you can use in battle.

#### BATTLE CARD

The most common type, you can get Battle Cards by defeating EM viruses, or by buying them in shops. They come in yellow, blue, red, and white. Each color denotes a different class of card.

#### STAR FORCE CARD

You will get this card along your journey. Use it to transform into Ice Pegasus Mega Man. If you have Brothers with other versions, you can also change into those types of Mega Man.

#### BROTHER FORCE CARD

You get these cards when you become Brothers with someone. During wireless battle, you can use the Brother Force Card one time to launch the Brother Force as a Best Combo. The abilities of these cards change depending on whether your Brother is **On Air** or not.

- When Your Brother is On Air Use this card in battle and your Brother will show up to fire off his Best Combo. If your Brother doesn't have a Best Combo, then this card will be the same as if your Brother was not On Air.
- When Your Brother is Not On Air When you use this card in battle, a roulette of your Brother's 6 Favorite cards will start. Pick a card and use it in battle!

#### LEGEND FORCE CARD

Use this card to recreate one of your Best Combos and deal massive amounts of damage to your enemy. But be careful! You can only use 1 Legend Force Card per battle, and they disappear after 1 use.

### OTHER IMPORTANT INFORMATION

- Share Star If you and a Brother each put the same card into your equipped folder and are On Air at the same time, that card will turn into a Share Star and its attack power will increase.

### CUSTOM GAUGE

The Custom Gauge begins to fill the instant you step onto the battle field. Once it is full, press the **L Button** or **R Button** to re-enter the Custom Screen.

### LOCK ON!

Pressing the **Control Pad** when you're on the Action Screen puts you in Lock-On Mode. Mega Man will lock-on to enemies that are in front of or at a 45° angle to himself. If you use a card after locking-on to an enemy, Mega Man will do a **MegaAttack**, and automatically charge up to his enemy and attack. During a match with a friend, Mega Man can lock-on to an opponent in front of, diagonal to, or at a 22.5° angle to himself.

After you win a battle, you go to the Result Screen where you can see your battle time, Busting Level, and any data acquired. Your Busting Level is an evaluation of your virus busting techniques. The higher your Busting Level climbs, the more valuable items you can get after victories.

## STAR FORCE POWER

During your journey, Mega Man will meet the Satellite Admins, one of whom is Pegasus Magic. After passing their test, Mega Man will be granted the power of the Star Force, as well as a Star Force Card. If you place this card in your folder, and choose it during battle on the Custom Screen, Mega Man will transform into Ice Pegasus Mega Man.

### ICE PEGASUS MEGA MAN

When you Counter as Ice Pegasus Mega Man, a card with a Star Force mark on it will appear instead of a normal Bonus Card. This is an SFB (Star Force Big Bang) Card and it is Ice Pegasus Mega Man's ultimate attack, Magician's Freeze.

On the Custom Screen, Ice Pegasus Mega Man can also choose cards from the same row as well as the same column.

- Freeze Your Foes with Ice Slash! Your Charged Shot is now a ball of ice, and if it hits, it will freeze the enemy.
- The Awesome Power of the SFB: Magician's Freeze! This attack sends giant ice crystals shooting out of the ground and temporarily freezes all enemies on the battlefield.

### STRENGTHS/WEAKNESSES

You hold immense powers when you gain the powers of a Satellite Admin, however, you also gain his weaknesses. If you're not careful, those weaknesses could be your downfall! If Ice Pegasus Mega Man is hit by an Elec elemental attack, he will take twice the damage and revert into Mega Man. Once he reverts, Mega Man can't transform into Ice Pegasus again in the same battle. Can you handle the incredible power of Ice Pegasus?

Exchange data with Brothers far away through a Nintendo Wi-Fi Connection.

- 1 **Connect to Nintendo Wi-Fi Connection (WFC)** Connect your Nintendo DS system to the Nintendo Wi-Fi Connection. (Be sure your Nintendo Wi-Fi Connection settings are set up first, or you will not be able to connect.)
- 2 **Send Your Data** After you successfully connect, your data will be uploaded to the Nintendo WFC server.
- 3 **Download Your Brother's Data** Once your data is uploaded, data your Brother has uploaded to the Nintendo WFC server is downloaded to your Nintendo DS. (You won't receive data for a Brother who has never connected to Nintendo WFC.)

### CONNECT

You can battle and trade cards with a friend nearby through the Wireless Screen. You can also become Brothers with a remote friend through Nintendo WFC.

**Note:** You cannot battle or trade cards through Nintendo WFC.

- **HOST** Host nearby Clients to battle, and trade cards with your friends.
- **CLIENT** Find a Host nearby to battle, and trade cards with your friends.
- **ENTER NO.** Enter a number to find other people who have set the same number. This makes it easier for you and your friends to find each other when numerous Hosts and Clients are in your area.

## WIRELESS MATCH BATTLES

Once you are connected via wireless connection, you will see two choices:

- **BATTLE** Battle your friend.
- **TRADE** Trade Battle Cards.

After choosing **Battle**, you can choose from these options.

- **1RD PRAC MATCH/3RD PRAC MATCH** Practice matches that do not count toward your record.
- **1RD MATCH/3RD MATCH** These battles count toward your record. Both players must have at least 1 Standard or Mega Class Card in their card boxes in order to choose this mode. The winner can take one of the loser's cards. If you set Brother Request to ON, you can ask the person to be your Brother after the match is over.

### MATCH BATTLE RULES

Whoever can make the opponent's HP drop to 0 (zero) first is the winner. If there is no winner after 15 turns, the damage each player dealt is added up. The player with the highest score is the winner.

### FRIEND CODE

Friend Code lets you become Brothers with remote friends via Nintendo WFC.

- 1 **Get Your Own Friend Code** First, enter the On Air menu. Then go to **NINTENDO WFC**. It's OK if you don't have any Brothers at this point. After connecting, your Friend Code will be displayed. You can check it from your Brother Screen.
- 2 **Exchange Friend Codes with Your Friend** Now, exchange Friend Codes with your friends, by mail or on the phone.

## 3 Enter Each Other's Friend's Friend Code

Select **FRIEND ROSTER** on the Wireless Screen. After selecting where you want your Brother to be on your Brother Card, you can enter your Brother's Friend Code.

- 4 **Connect to Nintendo WFC** After you both enter each other's friend code, you must both connect to the Nintendo WFC at the same time. It's a good idea to plan ahead so you can synchronize your connection time.

- 5 **A New Brother!** Once your BrotherBand is formed, you've got a new Brother!

### E-MAIL

Receive e-mails from your Echo Ridge friends, and write e-mails to your Real Brothers on this screen.

- Press the **Control Pad** to switch between screens.
- Press the **X Button** on the E-mail Screen to write an e-mail to your Real Brothers.

## CREATING E-MAIL

**Trade** Use this when you want to trade.

**VS** Use this to challenge someone to a battle.

**Notice** Use this for something important.

- **Receiver** The person you are writing to.
- **Subject** The title of your e-mail.

- **Present** You can choose to send your Brother a Battle Card as a present. If you and your Brother are not On Air at the same time, the e-mail will not be sent. If your Brother does not pick up the e-mail, it will be deleted from the server after a certain time limit. You can save 1 e-mail to be sent later. You can write an e-mail when you're not On Air and then send it later, when you are.

## LUNA'S SPECIAL BROTHER CLASS

"So! You've read through the manual, and you still don't know what a Brother is? I guess I'm just going to have to teach you all over again!"

### BECOMING BROTHERS

"Now, first of all, you can't do anything if you don't become Brothers. So to do that, make sure you have 2 copies of **MEGA MAN STAR FORCE**™, 2 Nintendo DS systems, and a friend. OK, all set? Good! Then follow the steps below to become Brothers!"

- |  |   |
|--|---|
| <p><b>YOU</b></p> <ol style="list-style-type: none"> <li>1. Select <b>CONNECT</b> on the Menu Screen.</li> <li>2. Choose <b>HOST</b>.</li> </ol> | <p><b>FRIEND</b></p> <ol style="list-style-type: none"> <li>1. Select <b>CONNECT</b> on the Menu Screen.</li> <li>2. Choose <b>CLIENT</b>.</li> </ol> |
|--|---|
- "It doesn't really matter which you pick, but if you both pick the same mode, you'll never find each other! So make sure one of you picks **HOST**, and the other one picks **CLIENT**!"
- BOTH**
3. Connection successful!
  4. Choose **BATTLE**.
  5. Start a battle (the mode doesn't matter).  
"Remember to turn **BRO REQ** to ON. Otherwise, you won't become Brothers after the battle!"
  6. Brother request accepted.  
"This is where you exchange secrets, so be honest!"
  7. BrotherBand complete!
- "Now your BrotherBand has been formed. Be good to your Brothers, OK?"

"And that is how you become Brothers! You can check that you're Brothers by looking at power-ups you've gained on your Personal Screen. Also, check that your Brother's Brother Force Card is in your Card Folder. You can also check your Library or Records. When you're done, let's move on to On Air!"

## GAME HINTS

### LET'S GO ON AIR!

"Next, let's go On Air with your Brothers, so go call that Brother you just made!"

#### YOU

1. Select **ON AIR** on the Menu Screen.
2. Choose **ON AIR**.
3. Choose Wireless **ON AIR HOST**.

#### FRIEND

1. Select **ON AIR** on the Menu Screen.
2. Choose **ON AIR**.
3. Choose Wireless **ON AIR CLIENT**.

### ON AIR!

"Make sure you don't both choose the same mode here too! If you do, you'll never go On Air! Make sure one of you is the Host, and one is the Client!"

#### DATA UPDATE!

"This is when various things like your Link Abilities and Favorite Cards are updated. Make sure you pay attention when Omega-Xis is talking to you!"

When you're done, try out your Brother's Brother Force Card in battle! You'll get to see your Brother's Best Combo in action! Of course, there are times when your Brother's Best Combo won't activate, but that's because your Brother doesn't have one equipped. Make sure you tell your Brother to equip one.

Oh! If you have a Share Star, your Battle Cards might have gotten stronger! If your cards haven't gotten any stronger, then your Brother probably doesn't have the same cards as you do in his or her folder. If you really are Brothers, you should probably try to have a few of the same cards!

And that concludes my special Brother Class! Now it's up to you to make more Brothers and have fun! All right, see you at school!

### TALK WITH OMEGA-XIS WHEN YOU'RE STUCK

If you're not sure what to do or where to go, press the **L Button** to talk with Omega-Xis. He may have a useful hint for you.

### GET PLENTY OF REST

When you run out of things to do, head to your room and go to bed for the night. When you wake up, it will be morning, the start of a new day.

### LOOK FOR WAVEHOLES

If you find any places or electronics of interest, check them out. A wavehole that is receptive to EM waves might appear!

### GO TO A SHOP

Along your journey, you'll find shops you can go into. Some items and Battle Cards are only sold at shops, so it's a good idea to see what's up for sale.

## OMEGA-XIS' GLOSSARY

### TRY THE CARD TRADERS

There are card trading devices called Card Traders throughout the world. If you feed cards into them, you can get new cards in return. What you get depends on luck.

### USING ATTACK ELEMENTS

All Battle Cards are 1 of these 5 elements: None, Fire, Aqua, Wood, and Elec. You can use attack elements to your advantage to get the upper hand. Experiment with different combinations and bring out the full power of each Battle Card!

### CIPHER MAIL

When you're choosing who to write to, pick the **Server Emblem** icon in the center. This will send your e-mail to the Satellite Server. Write "**Cipher**" in the subject line, and write the secret message in the body. If you do this, you will receive an e-mail from someone, somewhere. Secret messages can be found in various places, so try looking in different places or at items.

Here's some stuff I learned on Earth!

- BrotherBand** The BrotherBand is an interactive data transfer program developed by NAZA. This is an excellent program that displays another person's information as a way to further interpersonal communication. When people use this program, they tend to say things like *form a BrotherBand or become Brothers*.
- Card Force** Basically, Card Force refers to programs written on cards that people slide through their Transfers to run. The main types are Navi Cards for calling Navis to your aid, and Battle Cards that call weapons. There are other kinds, like Brother Force Cards, that you get when you become Brothers with someone, and Legend Force Cards that can recall Best Combos. Well, no matter what kind of card, the Card Force System is pretty useful, I'd say.
- Deleting** Deleting is like erasing, so basically it means once an EM virus or FM-ian is deleted, it won't be coming back any time soon. "Course, this means that a human who has EM Wave Changed into an energy being can get deleted too. So you'd better watch your back!
- Echo Ridge** This is where Geo lives. There's an elementary school where a bunch of kids all gather, and there's Vista Point where I met Geo. There's also a shop where you can stock up on Battle Cards. All those FM-ian incidents have been happening around here because of me, but what are a few evil guys anyway, right?
- EM Wave Change** When a human and an FM-ian fuse, that's called an EM Wave Change. After the transformation, the fused person has a EM body and can freely move around in the Wave World, as well as enter other people's Transfers. I don't know why, but it seems that after an EM Wave Change, my strength increases by a lot. At least it makes the little viruses seem like bugs.

## LINK UP!

- Humanoid Programs (aka Navis)** Earthlings have had Humanoid Programs since a few hundred years ago. Back then, people only had one Navi per person, but now people can have lots of specialized Navis, so they've become more useful than ever. They have EM bodies like us FM-ians, but don't get me wrong. I work for no human!
- On Air** When you're On Air, it means that you can send and receive data with your Brothers. I think the words mean something like you're *on top of the air*. This is also used when Geo goes to the Wave World, although he says it slightly differently. Well, I guess it makes sense, since the Wave World is high up in the air. The important thing to get right here is the dramatic pause between *On*, *The*, and *Air*.
- The Satellites** So there are these three special Satellite servers up in space named Pegasus, Leo, and Dragon. Every human's Transer is registered with one of those three Satellites, but I hear some weirdos who don't answer to anyone are in those Satellites...
